Dave/Jon/Julie –

Based on your work, work by ORNL, and input from Stuart, we provided an initial response to the Navy last week on their evaluation of the Hunters Point building remediation goals. We're waiting for their response. Attached is a copy of our letter to the Navy.

In the next week or two, we may want to set up a call with the Navy to discuss. I'm hoping you'll be able to join the call.

I owed you comments on your draft Technical Memorandum from April. Please see attached marked-up draft and let me know if you have any questions. Thanks!
